Lebanese University - Faculty of Economics and Business Administration

2022 - Present

SKILLS

HTML   CSS   PHP   SQL   SEO   LARAVEL
WORDPRESS   REACT JS   NODE JS

PERSONAL PROJECTS

Senior University porject
- For my university senior project, I developed a responsive voting website for the university council. Using HTML, CSS, JavaScript, PHP, and SQL, I created a user-friendly platform that allowed students to easily cast their votes. The website ensured smooth and secure voting processes, enhancing the overall voting experience for students.

Freelance
- ecommerce websites / admin dashboard control for stefftrading
- create pages upon request for Yara Bou Monsef (content creator)

Mini Projects
- React js + Laravel mini products dashboard with CRUD functionality (Title, description and image)
- Restaurant website using Laravel
- Sign Up/Log In, Update Password & Delete/Add Record web application using asp.net

Tutor
- Providing training sessions to university students and individuals interested in acquiring web development skills.
